ABOUT COMPANY

Narsun Studios is a high-end technology enterprise with years of experience in Game development services as well as Web/mobile designing solutions. The company ensures the applications are reliable, faster, and engaging.

Narsun Studios have effectively created **135+ games** with a striking number of **89+ VR games** developed. Keeping into account all these aspects, we design pixel-perfect mobile games that are optimized for iOS and Android. As modern games come in variations, we are well capable of making **2D & 3D unity games** with high resolution. We are industry-leading AR/VR game developers and design games in the Unreal engine which is certainly the complete suite of tools to meet artistic visions.

Narsun Studios is launching Pakistan's first Metaverse, The Cloud City Metaverse, built on Unreal Engine 5, the most powerful engine that combines high-end graphics, hyperrealistic environments, and great visual design with audio, lighting, animation, and other capabilities to give players an immersive experience.

02

With a world-class team of brilliant data scientists, engineers, designers, creative artists, and monetization experts with a combined experience of more than 30 years with Fortune 500 businesses, Rocket Fuel Technologies is a gaming company focused on creating mobile games. We are driven to create beautiful and useful digital goods for the Apple App Store and Google Play Store that add new elements to the racing, simulation, hyper-casual, first-person shooter, and mid-core gaming genres.

Our mission is to provide a world-class experience to all our patrons. We want to create regulated and responsible entertainment with a positive influence on people's lives.

OUR HISTORY

Narsun Studios was founded in 2016 when two passionate friends decided to convert their dreams into reality. Starting from a spare room in a friend's office, Umer Abbas and Ahsan Imtiaz, who were developing games for fun, now started developing for others.

The company made game development in Unity and Unreal Engine, their primary focus. They started developing games and gradually increased their team. And they never looked back!

VISIONS & GOALS

WE DON'T JUST SAY, WE DO!

Narsun Studios works in the most captivating space out there at the moment: the Gamification of Blockchain and NFTs. NFT design, smart contract development, and deployment, custom NFT marketplaces, wallet development and integration, ideation to deployment of play-to-earn games. You name it and we have mastered it. We are here to make this space our own!

Cloud City Metaverse will be an open-world adventure built for you. Users can discover the community area together, play Games, and explore NFTs. It is the first metaverse to come out of Pakistan and one of the very first AAA metaverse in the Web 3.0 space.

Rocket Fuel Technologies' mission is to be the leading gaming company by providing superior entertainment value and exceptional experiences. We strive to excel in the digital gaming world with positivity.

OUR SERVICES

BLOCKCHAIN

Narsun Studios is your one-stop shop for all things blockchain. We offer a wide range of services to help businesses and individuals navigate the world of blockchain technology. Our team of experts is well-versed in the latest developments and can help you take advantage of the many benefits that blockchain has to offer.

NFT MARKETPLACE

Discover the Unique and Scarce World of NFTs on Our Marketplace
NFTs, or non-fungible tokens, are digital assets that are one-of-a-kind and cannot be replicated. That's what makes them so special and valuable. We offer a wide selection of NFTs from top artists and creators. From digital art to collectibles, there's something for everyone in our marketplace. Don't miss out on the chance to own a piece of digital history.

UNREAL DEVELOPMENT

Narsun Studios is your one-stop shop for all things blockchain. We offer a wide range of services to help businesses and individuals navigate the world of blockchain technology. Our team of experts is well-versed in the latest developments and can help you take advantage of the many benefits that blockchain has to offer.

AR

Our AR (Augmented Reality) service offers a unique and cutting-edge way for businesses to engage with their customers. By incorporating AR technology, our service allows businesses to provide an immersive and interactive experience that was not possible before.

VR

Our cutting-edge VR (Virtual Reality) service is designed to revolutionize the way businesses engage with their customers. By incorporating VR technology, our service allows businesses to provide an immersive and interactive experience that is not possible with traditional methods.

VOXEL GAME DEVELOPMENT

Our services include designing and programming the game, creating the voxel models, developing the game engine, and integrating the game with other technologies such as virtual reality or augmented reality, The Sandbox, Decentraland, and Spatial.

DIGITAL TWINS

Digital twins create a virtual representation of physical assets, systems, and processes. Digital twins can replicate many real-world items, even entire cities, and offers you a complete visual and digital view.

ARCHVIZ

We specialize in creating stunning 3D visualizations of residential, commercial, and industrial buildings. From concept design to final render, our team of experts uses the latest technology to bring your vision to life. Whether you need a single image or a full animation, we have the skills and experience to deliver high-quality results in a fast and efficient manner.

GAME DEVELOPMENT

Game development requires a combination of aesthetics and technical execution. since. We have set up a standard in the world of gamification by facilitating clients with world-class games using “Unreal Engine” and “Unity 3D” technologies. Our main expertise in game development expands over a wide range including 2D/3D, Augmented Reality (AR), and Virtual Reality (VR).

METaverse

Metaverse, like the internet, is the next platform on which we can work, live, connect, and collaborate. It's going to be an immersive virtual environment that connects different worlds and communities. Immersive, connected worlds for collaboration, education, e-commerce, and more. Our platform makes it easy for you to create your piece of the metaverse.

APPLICATION DEVELOPMENT

Application development involves the process, life, and creation of software aimed at helping users. It is one of the quickest and most effective ways to utilize technology. We develop pixel-perfect apps for Windows, iOS, and Android platforms with first-class user experience. We are making the process simpler and providing easy, smart, and user-friendly mobile applications.

SOFTWARE CONSULTING

We help plan and implement software development projects with skilled resources. We aid our clients to develop a better idea about their requirements and how it may exactly give a boost to their businesses. If you have an idea that could be a game changer, we can help you bring it to life.

3D MODELING

3D Modeling is about creativity and originality. Our individuals have great design sense. With their utmost efforts, we were able to deliver several eye-catching application designs, 3D modeling, logo designing, texturing, and animation.

QUALITY ASSURANCE

For us, Quality Assurance and Testing are important phases of the project completion lifecycle. We maintain the desired level of quality in our service and product. We have a proper team of experts in place for QC/QA tasks. We ensure the quality of your product.
